OmniCooker (zenUltraCooker v2.2.0) — Product Brief & Live Launch Spec

Product #1 of the 3-3-3 Portfolio • Dedicated to Ma, Dra, Trisha & Alex {<3, <3, <3}

"Sometimes the best doesn't come from a pit. I am off to sell something Alex loves." — Built so Ma, Dra, Trisha, and Alex can run the kitchen, pantry, household essentials, and live grocery checkout from a single link or Android/iOS tap.

1. Core Family Problems Solved Today

• **Appliance Fault Auto-Routing (Wall Oven Offline → Air Fryer Primary):** When the Wall Oven is marked out of service, OmniCooker automatically converts every recipe step to the **Countertop Air Fryer (400°F crisp mode)**, **4-Burner Gas Stovetop**, or **6-Qt Dutch Oven** so no meal ever fails mid-prep.
• **15+ Food & Non-Food Household Inventory with Expiry Alerts:** Tracks both fresh ingredients (Free-Range Eggs, Baby Spinach, Garlic, Jasmine Rice) and essential non-food household stock (Paper Towels, Dish Soap, Heavy Duty Foil, Parchment Paper, Trash Bags) with live 1-to-3-day use-first badges.
• **Real US Store Price Comparison (Medina OH 44256 + Any US ZIP):** Compares basket totals across **Walmart Supercenter ($34.97)**, **Aldi ($31.40)**, **Kroger ($37.80)**, **Meijer ($36.50)**, and **Whole Foods ($48.90)** with 1-tap CSV/clipboard export.
• **Speakerphone Table Seat (+1 Toggle):** Scales recipes from 4 to 8 guests and keeps remote family at the table.

2. Subscription & Express Checkout SKUs (Live on entheai.com/api/stripe/checkout)

Plan / Bundle	Price	Stripe SKU	What's Included for the Household
OmniCooker Family Monthly Pass	**$4.99 / mo**	*sub-omnicooker-family*	Up to 6 family seats (Ma, Dra, Trisha, Alex, Chris, Peter), live pantry sync, appliance fault routing & store price comparison
OmniCooker Annual Hearth Pass	**$42.00 / yr** (Save 30%)	*sub-omnicooker-annual*	Full year of Family Hearth access + priority Seasonal Recipe Packs + 4-Burner Household Budget Firewall
Express Grocery & Household Basket	**$34.97** (One-Time)	*omnicooker-market-basket*	Direct checkout for the Medina OH 44256 weekly food + household supplies basket via Apple Pay, Google Pay, or Stripe

3. ELI5 Payment Architecture: Apple Pay + Google Pay + Stripe

• **1 Cashier, 3 Doors:** Stripe (`acct_1UUTcTRnidUxAlVy`) is the single vault. Apple Pay (`merchant.is.8b.zenultracooker`) and Google Pay are biometric express doors into that same Stripe account.
• **Zero Card Numbers Stored on Device:** FaceID / TouchID / Android Biometrics hand a one-time cryptographic token directly to Stripe Checkout (`entheai.com/api/stripe/checkout`), which mints an Ed25519 Sovereign Pass (`vkd_sk_*`).
• **4-Burner Household Budget Firewall:** Every checkout automatically logs to the Kintsugi SHA-256 receipt ledger and allocates 50% Operations, 25% R&D, 15% Family Hearth, and 10% Hardware Reserve.

4. Live Links & Distribution Artifacts (v2.2.0 • Build 20200)
